

THE BRIEF

Solana Mobile & Radiants invite you to CLOCK IN. The third Solana Mobile hackathon: a place for builders to go from 0 to 100. This is where invention meets execution and ideas become the next big thing. Open to solo builders, agent orchestrators, vibe conductors, and fully-fledged teams.

THE CATEGORY

Mobile. Expanding the Solana Mobile ecosystem through mobile-first dApps designed for the Solana dApp Store, open to any application that delivers a strong mobile experience, from consumer apps and games to tools, utilities and experiments.

The emphasis is on usability, performance, and thoughtful mobile design that feels natural on a phone.

WHAT COUNTS AS A SUBMISSION

A working build, a repository someone else can clone and run, and a demo of three minutes. It has to run on a device rather than only in a simulator: a video nobody can install is not a submission.

HACKATHON

WHAT TO BUILD

- Android only. Your app must produce a functional APK.
- Must integrate the Solana Mobile Stack and Mobile Wallet Adapter.
- Design for mobile from the ground up. Direct ports or PWA wrappers will score poorly.
- Your app should interact meaningfully with the Solana network.

WHAT TO SUBMIT

- A functional Android APK.
- A GitHub repository with your source code.
- A demo video showcasing your app's functionality.
- A pitch deck or brief presentation explaining your app.

RESULTS

- Results announced November 10th.
- Winners must publish their app to the Solana mobile DApp Store within 30 calendar days after the winners are announced.
- All winners are subject to technical review, including code verification and follow-up questions.

EVALUATION CRITERIA

STICKINESS & PMF (25%)

How well does your app resonate with the Seeker community? Does it create habits and drive daily engagement?

USER EXPERIENCE (25%)

Is the app intuitive, polished, and enjoyable to use?

INNOVATION / X-FACTOR (25%)

How novel and creative is the idea? Does it stand out from existing products?

PRESENTATION & DEMO QUALITY(25%)

How clearly did the team communicate their idea? Does the demo effectively showcase the core concept?

—

RULES

ELIGIBILITY

- Project must have been started within 3 months of the hackathon launch date.
- Only teams without VC or angel funding are eligible for USDC prizes.
- Pre-existing projects are allowed if they show significant new mobile development during the hackathon.
- Teams with existing web apps can participate, but must build an Android app with significant mobile-specific development.
- Direct ports or minimal conversions of existing web apps, including PWA wrappers with little to no mobile optimisation, will score poorly and are unlikely to win. We're looking for apps that take meaningful advantage of mobile.

SUBMISSION REQUIREMENTS

All submissions must include: a functional Android APK, a GitHub repo, a demo video showcasing functionality, and a pitch deck or brief presentation explaining the app.

PRIZE ELIGIBILITY

Publishing on the Solana dApp Store is not required by the submission deadline. However, winners must publish their app to the Solana mobile DApp Store within 30 calendar days after the winners are announced to claim their cash prize.

SUBMISSION DEADLINE

All materials (GitHub repo, demo video, and pitch deck) must be submitted before the deadline. No late entries will be accepted.

- Only one submission per contestant, either as a solo participant or as part of a team. No multiple submissions will be allowed and will automatically result in a forfeit.

DISQUALIFICATION

Any team found to have provided false or misleading information on its registration or submission materials, or to have breached any rule of this hackathon, will be disqualified and forfeit all prizes, awards, and recognition. The organisers may make this determination at their sole discretion at any time; before, during, or after the event. Radiants may reclaim any prize already awarded.

ELIGIBLE COUNTRIES

USDC prizes are available to participants in the [eligible countries](#). Open the list to view and search it.

—

PRIZES

Build your mobile app and compete for \$135k USDC in total prizes

GRAND PRIZES

- #1
\$30,000 USDC A Seeker device for each team member.
- #2
\$25,000 USDC
- #3
\$20,000 USDC
- #4
\$15,000 USDC
- #5
\$10,000 USDC

WINNERS

\$5,000 USDC each for 6th to 10th place.

SKR INTEGRATION PRIZE

\$10,000 in \$SKR for the best SKR integration.

EXTRAS

FEATURED DAPP STORE PLACEMENT

High visibility features for top projects. Over 100,000 eyeballs from the get go.

MARKETING & LAUNCH SUPPORT

Go-to-market strategy and guidance. Marketing amplification from official Solana Mobile channels.

A CALL WITH TOLY

Winners will get a chance to receive feedback directly from Anatoly Yakovenko, co-founder of Solana Labs.

JUDGES

ANATOLY YAKOVENKO

Co-founder, Solana Labs

MERT

CEO and Co-founder, Helius

CHASE

Founder Mentor, Solana Foundation

AKSHAY

BD & Ecosystem, Solana Mobile / Solana Labs

BEEMAN

Dev Marketing and Relations, Solana Mobile

VOYNICH

Security Researcher, Ethelsec

A2NKF (ILIAS)

Security Researcher, Ethelsec

EVALUATION PROCESS

- Completion based on the demo video.
- Technical depth based on GitHub commits.
- Mobile-optimized user experience and usage of mobile features.
- Usage and interaction with the Solana network.
- Clarity and vision from the presentation.

EVALUATION CRITERIA

STICKINESS & PMF (25%)

How well does your app resonate with the Seeker community? Does it create habits and drive daily engagement?

Is the app intuitive, polished, and enjoyable to use?

INNOVATION / X-FACTOR (25%)

How novel and creative is the idea? Does it stand out from existing products?

PRESENTATION & DEMO QUALITY(25%)

How clearly did the team communicate their idea? Does the demo effectively showcase the core concept?

FAQ

GETTING STARTED

📄 COPY

HOW DO I SIGN UP?

Register on Align: sign in, complete your builder profile, then register for the hackathon from the Clock In Registration screen.

📄 COPY

DO I NEED AN ORGANIZATION PROFILE ON ALIGN?

No. Individual builders and teams register directly, and an organization profile is not required to compete.

📄 COPY

WHAT DIMENSIONS SHOULD MY PROFILE BANNER BE?

Use a wide, landscape banner image. The recommended size is shown on the upload screen.

📄 COPY

WHEN IS THE SIGN-UP DEADLINE?

See the event schedule for the sign-up deadline. Register before it to be eligible to submit.

📄 COPY

WHO SHOULD SUBMIT?

One submission per team: the team lead submits on behalf of the team, and solo builders submit for themselves.

📄 COPY

CAN I COMPETE SOLO?

Yes. Solo builders and teams are judged the same way.

ELIGIBILITY

📄 COPY

CAN I ENTER IF I WON A PREVIOUS HACKATHON?

Yes. Previous winners may enter, as long as the project meets the eligibility rules.

📄 COPY

CAN I WORK ON A PRE-EXISTING PRODUCT?

Yes, if it shows significant new mobile development during the hackathon. A pre-existing project with no new work is not eligible.

📄 COPY

WHAT IF MY APP IS ALREADY LIVE OR SHIPPED?

That is okay, but there must be something new built specifically for the hackathon (for example a new feature, or bringing it from the Apple App Store to the Solana dApp Store).

📄 COPY

CAN I CONVERT AN EXISTING WEB APP TO MOBILE?

You can participate with an existing web app, but you must build an Android app with significant mobile-specific development. Direct ports or PWA wrappers with little mobile optimisation will score poorly.

📄 COPY

ARE FUNDED PROJECTS ELIGIBLE?

Only teams without VC/angel funding are eligible for USDC prizes

📄 COPY

CAN I COMPETE IN BOTH CLOCK IN AND COLLOSSEUM HACKATHONS?

Yes, you may.

📄 COPY

ARE THERE TRACKS?

The main competition is judged as a single category. There is also a bonus SKR Integration prize for the best SKR integration.

BUILDING & SUBMISSIONS

📄 COPY

WHAT CAN I BUILD?

An Android app that produces a functional APK, integrates the Solana Mobile Stack and Mobile Wallet Adapter, is built for mobile from the ground up, and interacts meaningfully with the Solana network.

📄 COPY

CAN I SUBMIT MULTIPLE PROJECTS?

Only one submission per contestant, either as a solo participant or as part of a team. No multiple submissions will be allowed and will automatically result in a forfeit.

📄 COPY

CAN I JOIN OR CREATE A NEW TEAM ONCE OUR TEAM HAS SUBMITTED?

Unfortunately not. Once a team has submitted, all team members are locked and cannot submit another project or join another team for the duration of the hackathon.

📄 COPY

CAN I VIBE-CODE MY APP?

Yes. How you build is up to you, as long as the work is your own and meets the submission requirements.

📄 COPY

DOES MY GITHUB REPO NEED TO BE PUBLIC?

Your repository must be accessible to the judges so they can review your code and commit history.

📄 COPY

DO I HAVE TO INCLUDE AN APK?

Yes. A functional Android APK is a required part of every submission.

📄 COPY

WHAT ARE THE SUBMISSION REQUIREMENTS?

A functional Android APK, a GitHub repository with your source code, a demo video showcasing functionality, and a pitch deck or brief presentation.

📄 COPY

DOES MY SUBMISSION NEED TO BE A MOBILE APP?

Yes. It must be an Android app built for mobile from the ground up.

📄 COPY

IS THERE A LIMIT ON THE NUMBER OF ENTRIES?

See the official rules for entry limits.

📄 COPY

CAN I EDIT MY SUBMISSION BEFORE THE DEADLINE?

Yes you may edit your submission anytime before the deadline whilst it is in draft. However you may not edit your submission if you have completed the final submission agreement.

📄 COPY

WHEN DOES SUBMISSION CLOSE?

See the event schedule for the submission deadline. No late entries are accepted.

📄 COPY

CAN I KEEP WORKING ON MY CODE AFTER SUBMISSION CLOSES?

Judging is based on what you submitted before the deadline, including your GitHub commits up to that point.

📄 COPY

HOW DO I TEST WITHOUT A SEEKER?

You can build and test your APK on an Android emulator or any Android device.

PRIZES & PUBLISHING

📄 COPY

WHAT IS SKR?

SKR is the native asset of the Solana Mobile Ecosystem. The best SKR integration receives a \$10,000 SKR prize.

📄 COPY

DO I NEED TO PUBLISH ON THE DAPP STORE?

Not by the submission deadline. However, winners must publish their app on the Solana dApp Store to claim their prize, within 30 calendar days after winners are announced.

📄 COPY

HOW ARE PROJECTS EVALUATED?

Judges assess completion (demo video), technical depth (GitHub commits), mobile-optimised UX and use of mobile features, interaction with the Solana network, and clarity of the presentation. Everything is scored across four equal 25% criteria.

LEGAL

These Terms & Conditions govern participation in Clock In — A Solana Mobile Hackathon, organized by Radiants DAO Ltd. The summary below is for convenience only; the full Terms & Conditions are the binding document and prevail in any conflict.

► [Read the full Terms & Conditions](#)

► [Read the full Privacy Policy](#)

ELIGIBILITY

Open to participants who are at least 18 (or the age of majority where higher), legally able to contract, and resident in an Eligible Country — subject in all cases to sanctions, watchlist, and compliance screening. (Sections 3–4.)

TEAMS & SUBMISSIONS

A team's composition becomes final and fixed at submission time; no members may be added or swapped afterwards. Each submission needs a functional Android APK, a GitHub repository, a demo video, and a pitch deck, and must integrate the Solana Mobile Stack. (Sections 5–6.)

INTELLECTUAL PROPERTY

You retain ownership of your Project and submission, and grant the Organizer a non-exclusive, royalty-free licence to use submitted materials for administration, judging, archival, and publicity. Submissions are not treated as confidential. (Section 7.)

PRIZES, KYC & PUBLICATION

Scores and winner announcements are provisional until eligibility and KYC/AML checks (via Sumsb) are complete for every team member. USDC prizes are limited to teams that have not raised venture or angel funding, and winning apps must be published on the Solana dApp Store within 30 days. (Sections 8–10.)

GOVERNING LAW

These Terms are governed by the laws of the British Virgin Islands, and disputes are resolved by arbitration before the BVI International Arbitration Centre. (Sections 17–18.)
